

C1 Vibratory Finishing Compound

- Description:** B.V. Products C1 is a powder compound composed of a blend of sophisticated cleaners combined with a high quality, industrial detergent.
- Appearance:** White powder with a faint odour of soap powder.
- pH:** pH of aqueous solution 8 to 9.
- Bulk Density:**
- Applications:** C1 is an excellent general purpose compound developed for use in the cleaning & degreasing of mild steel, hardened steel and stainless steel components, and is widely used in the finishing of boat fittings. Excellent results are also achieved on hardened steel products such as seat belt components, especially in Barrel Finishing machines where its qualities are fully utilised. C1 is also finds uses in the cleaning and reclaiming of soiled or glazed medias. Especially usefully in recolouring steel media. This product is also free rinsing.
- Use:** Best results are obtained when used at a concentration of 10 - 20g/L of water.
- As with all industrial chemicals, care should be taken when handling or using the C1 compound. We recommend that contact be avoided with skin and eyes by wearing safety glasses, rubber gloves and overalls when using this compound. In unventilated areas, a dust mask should also be worn.
- Biodegradability:** The detergent component is 80% biodegradable.
- Packaging:** 25kg white, polythene lined woven polypropylene sacks.
