

P1 Vibratory Finishing Compound

- Description:** B.V. Products P1 is a powder compound composed of a unique blend of sophisticated cleaners combined with several high quality, industrial detergents. This compound also contains an excellent ferrous metal corrosion inhibitor.
- Appearance:** White powder with a faint odour of soap powder.
- pH:** pH of aqueous solution 8 to 9.
- Bulk Density:**
- Applications:** P1 is an excellent general purpose compound developed for use in the cleaning, deburring & polishing of mild steel, hardened steel and stainless steel components, where its excellent cleaning and inhibiting qualities are utilised. P1 is a good choice for use with Aluminium Oxide nuggets in Barrel Finishing Machines. This product is also free rinsing.
- Use:** Best results are obtained when used at a concentration of 100g/L of water.
As with all industrial chemicals, care should be taken when handling or using the P1 compound. We recommend that contact be avoid with skin and eyes by wearing safety glasses, rubber gloves and overalls when using this compound. In unventilated areas, a dust mask should also be worn.
- Biodegradability:** The detergent component is 80% biodegradable.
- Packaging:** 25kg white, polythene lined woven polypropylene sacks.
